Easing Your Concerns When the Unexpected Happens

Sometimes it's an auto accident. Sometimes it's a heart attack or specialized treatment. Unfortunately, unexpected medical issues come with unexpected costs. The focus should be on getting well – not on how you are going to pay out-of-pocket health care costs. Commerce Bank gets it. That's why we are working with WakeMed to offer you Health Services Financing (HSF[®]) to help you manage and pay for your health care costs so you and your family can keep moving forward.

How It Works

We recognize that not all patients are able to pay their out-of-pocket costs, such as deductibles and co-insurance expenses, in full right away. That's why participating in Commerce Banks' Health Services Financing program can help make your life easier. It allows you to pay medical bills over time through **monthly payments.**

Benefits

One monthly payment

0% interest

Add multiple services
to one account

No credit check
performed

You can enroll quickly and without hassle
– online, over the phone or in person by
contacting WakeMed's Patient Financial Services
representatives. For more information or to get
started, please contact WakeMed at **919-350-8359**.
